

COMMERCIAL OPEN SOURCE SW (COSS)

- Some examples:
 - **Cal .com:** AGPL + Commercial License
 - **PostHog:** MIT Expat + Commercial License
 - **Outline Wiki:** BSL, no-charge community edition,

CAN OPEN SOURCE BE A JOB?

- A lot of open source is produced and maintained by employees who have paid day jobs
- “Indie” open source is incredibly hard for developers in the Global North to make enough money through just contributions
- What about the rest of the world?
